

A photograph of a dining table set for a meal. The table is covered with a vibrant green tablecloth. Two place settings are visible, each featuring a white plate, a pink napkin, and a glass. A wooden-handled fork and knife are placed on the table. In the background, a wicker chair and a hanging plant with long, thin, brown leaves are visible. The overall aesthetic is rustic and natural.

**AXLINGS**

# Axlings Linne

To me, linen represents the perfect blend of qualities. It is natural, warming, cooling and above all durable. Nothing ages more beautifully.

*Fredrik Axling*

Fredrik Axling CEO

---

Axlings Linne has been working with linen since 1992. The idea to start our own linen company was born out of the love for natural and sustainable materials and the desire to create beautiful linen products. We have always combined classic materials and traditional production techniques with modern Scandinavian design.

Today, we are proud of our linen products and the quality and function they provide to our clients around the world – from interior design shops, restaurants and catering firms to hotels, spas and beauty salons. You can find our resellers throughout Sweden as well as in Europe, Canada, the United States, Australia and Japan.

In our assortment, you will find linen products and organic cotton for all of your needs – from tablecloths, runners, towels, napkins to cushion covers, bath towels and toiletry bags as well as our popular paper napkins.

We hope that you will enjoy all our products as much as we do!

# Boheme

New collection in three colours; natural, cardamom seed green and dusty pink in 100% washed linen.

Generously sized tablecloths and napkins.

> Boheme tablecloth dusty pink and napkins natural and dusty pink. Along the long sides of the tablecloths we have kept the selvages for a decorative fringed look.

## Boheme Tablecloths and napkins

## Vändteg

This collection is inspired by the colours I remember from my childhood, growing up on a farm. Vändteg is the spot where the farmer turns to continue the next straight line when harvesting.

*Fredrik Årling*

> Double up, tablecloth and runner. Vändteg long runner in green-natural serves as table center on top of the Gård tablecloth natural. Towel and napkin. Linåker brown towel folded along with Gård napkin gives a welcoming and generous green+brown set up.

Gästabud  
Gästabud means "feast  
with many guests invited"  
and although the word  
is old, it is still frequently  
used for special events.

> Axlings kitchen towels Gästabud, natural, green, brown and marine. Perfect as glass towels, or why not as generous napkins? The pattern is also inspired by old traditional Swedish bolstervar stripes. These towels in big numbers will do the trick when setting a table for any special event.

## Gästabud Kitchen towels

# Linen

## Facts and care

---

Made from the fibers of the flax plant, linen textiles are amongst the oldest textiles in the world. The plant itself requires a great deal of attention to make linen this beautiful, durable and strong. The fibers do not stretch and are resistant to damage from wear and tear. Linen is also one of the few textiles that is actually stronger wet than dry.

Flax grows and thrives well in cool and wet climates, which means that irrigation is not necessary. This makes linen a good choice for the planet, since water is often a shortcoming.

Because of its superior quality, linen has been preferred for table and bed covers and in kitchens and bathrooms for centuries.

Linen is relatively easy to take care of since it is so resistant to dirt and stains. It has relatively minor linting and pilling tendencies, feels cool to the touch and can easily be dry-cleaned, machine-washed or steamed. It can withstand high temperatures, has moderate shrinkage and gets softer and more beautiful the more it is washed. It can also absorb water more effectively compared to cotton.

100% linen can be washed in between 40–90° C. Linen terry and linen/cotton mixes should be washed in between 40–60° C. Unwashed linen has a shrinkage of ca 5–7%. It should not be tumble dried too extensively (except for towelling where it is recommended). It is much easier to iron when it's damp. Linen also wrinkles very easily, something that is a part of its special charm and beauty.

## Sustainability Flax & linen

---

»LINEN IS A SUSTAINABLE MATERIAL BY NATURE. THAT DOESN'T STOP US FROM IMPROVING OUR PRODUCTION AND SUPPLY CHAIN TO REDUCE OUR FOOTPRINT FURTHER «

Linen is a natural fiber from the flax plant, thriving in cool climates with adequate rainfall. It is far more sustainable than cotton because flax cultivation requires less water and essentially no irrigation systems due to the rainy growing season. Inherent insect-repelling properties significantly reduce the need for pesticides when growing flax. The seeds are edible, and oil pressed from the seeds is the main ingredient in organic linseed oil paint.

The use of linen as fabric dates back to 4000 BC. Durable linen enjoys a long lifespan, making it one of the most sustainable fabrics. Its health benefits are many. It does not cause allergic reactions, inhibits bacterial growth, and retains warmth when it is cold yet is cool and breathable when it's warm.

All Axlings linen products are made with flax harvested and produced in the Baltic region – about 500 km from our Stockholm office.

Whenever possible, we order larger quantities for each shipment instead of ordering smaller volumes more frequently to reduce fossil fuel emissions from transportation. To inspire our clients, we also challenge them to place fewer but larger volume orders to help reduce the negative effects of transportation. Imagine if we can reduce our carbon footprint by 50% together.

Eliminating the use of plastic packaging is another goal we have set. Until we identify a sound alternative to plastic, we are working to reduce the use of plastic by excluding it or simply by placing more products in each package.
